

Nutrition Guide

Expect more. Get more.

It's time to expect more.

At Xyngular, we've helped hundreds of thousands of people improve their lives because it's what we do, and we do it really well. But weight loss is just the beginning, it's time to expect more.

Our support tools and community are here to simplify the journey and guide you through a sustainable path to better health. Whether you're here for weight loss, digestive support, more energy, or just a genuine desire to improve your overall health, Xyngular can help.

The Nutrition Guide will walk you through the next 30 days and beyond to make your Xyngular journey a success. The foundation for a healthier, stronger, happier you starts here!

Tips for Success

Before we dive in, let's cover our top four tips for success.

1. Products That Work

Even if you have a bad day, Xyngular products keep you on track. Xyngular products have made the difference for hundreds of thousands of people for a reason. It's important that you take them the same time every day to optimize their effects. Check out your product timeline at xyngular.com/xresources.

2. Eat to Lose

It may seem counterintuitive, but to lose weight you need to eat. Your fired-up metabolism requires fuel. To fuel it consistently, you need food every three hours. Eat three meals and two snacks each day while taking your Xyngular products.

3. Drink More Water

Most people don't drink enough water. Hydration is an important part of using your Xyngular products and boosting your overall health. To see results, get comfortable drinking a substantial amount of water every day.

How much water should you drink?

Drink 1 L for every 70 lbs of body weight.

Example: If you weigh 200 lbs, you should drink 3 L of water daily.

4. Don't Snack & Snooze

Nighttime snacking can be a big problem, and mindless eating adds up quickly. For this program, we recommend you stop eating two hours before bedtime. This will help you cut down on any unnecessary snacking and let your metabolism get to work.

8-Day Jumpstart

The first eight days of your kit make up your 8-Day Jumpstart. Stay on track with your specific product timeline, and follow the 8-Day Jumpstart nutrition guidelines.

During your 8-Day Jumpstart you'll limit your carbohydrates, fat, and sugar intake. Choose Jumpstart-approved high-protein recipes to structure your day. Use the 8-Day Jumpstart meal planning template [here](#), or apps like Lose It or My Fitness Pal to make it easy.

- Access delicious 8-Day Jumpstart recipes by clicking [here](#).
- Each Jumpstart recipe includes serving size and caloric information.
- You are free to use other recipes, provided they stick within the guidelines.

8-Day Jumpstart

Day at a Glance

Here's an example Jumpstart day.

Breakfast	Lean shake
Mid-Morning Snack	High-protein snack Example: Celery and 2 tbs natural peanut butter
Lunch	115-170 g lean protein, 250-500 mL vegetables, and 1 serving healthy fats Example: Eggplant salad
Mid-Afternoon Snack	High-protein snack Example: 125 mL pumpkin seeds
Dinner	115-170 g lean protein, 250-500 mL vegetables, and 1 serving healthy fats Example: Fajita spiced chicken

Pro Tip: Each day of your 8-Day Jumpstart is already planned out! Find a daily schedule at xyngular.com/jumpstart.

8-Day Jumpstart

Balsamic Vinegar

Dijon Mustard

Hot Sauce (low sodium)

Mayonnaise

Lemon Juice

Lime Juice

Red Wine Vinegar

Seasonings & Spices
(fresh and dried)

White Wine Vinegar

Snacks

Serving Per Snack: 125 mL

Almonds (unsalted)

Avocado

Dill Pickle (low sodium)

Edamame

Eggs

Grilled Chicken

Hummus

Kale Chips

Macadamia Nuts (unsalted)

Peanuts (unsalted)

Peanut Butter and Celery

Pecans (unsalted)

Pumpkin Seeds (unsalted)

Sunflower Seeds (unsalted)

Turkey Breast

Vegetables

Walnuts (unsalted)

Foods to Avoid

Alcohol

Baked Goods

Dairy

Fried Foods

Fruit

High-Fat Foods

Ex: Deli meat, margarine

High-Sodium Foods

Ex: Pork (bacon, sausage, salami)

Pasta

Pre-Packaged Foods

Soda (including diet soda)

Sugar-Sweetened Beverages

Vegetable Juice

Vegetable Oil

Post-Jumpstart

After your 8-Day Jumpstart, you'll continue on a nutrition plan with simple guidelines on eating smart and finding what works best for you.

Day 9-30 is what we call "Post-Jumpstart". The goal is to fuel your body with nutrient rich, whole foods to help your metabolism stay on track while seeing the results you want. The key is learning portion control and sticking to it for lunch and dinner, while taking your Xyngular products at the same time every day.

Your plate should be portioned similar to the chart below for lunch and dinner (remember, breakfast usually starts with a Lean shake).

Pro Tip: Go digital. Track on the go with apps like Loselt! or MyFitnessPal.

Day at a Glance

Sample day of a Post-Jumpstart plan:

Breakfast	Lean shake
Mid-Morning Snack	High-protein snack Example: 57 g cheese and 63 mL almonds
Lunch	115-170 g lean protein, 250-500 mL vegetables, and 1 serving healthy fats Example: Black bean and sweet potato kale tacos
Mid-Afternoon Snack	High-protein snack Example: 250 mL fat free vanilla Greek yogurt
Dinner	115-170 g lean protein, 250-500 mL vegetables, and 1 serving healthy fats Example: Greek chicken bowls

Pro Tip: Shake up your day with a fun Lean shake recipe found on the **Xyngular blog**.

Want a premade 30-day plan breakdown? Find a breakdown for each day and week at xyngular.com/xresources.

Post-Jumpstart

Foods We Love

This is not a comprehensive list of foods, but the foods on this list are a safe bet! Remember to follow the portion guideline on the previous page.

Lean Proteins

Beans (fresh or canned)* Ex: Black, lima, kidney, navy, pinto, soy, garbanzo, etc.	Edamame Pasta	Soybean Pasta
Beef (lean cuts)	Eggs	Tofu
Chicken	Fish	Tuna
Chicken Sausage (2 links)	Greek Yogurt (1 C)	Turkey
Cottage Cheese (1 C)	Protein Powder (Xyngular Lean)	Turkey Bacon (2 slices)
	Shellfish	Turkey Sausage (2 links)

**Limit once per day.*

Pro Tip: Prepackaged proteins like deli and processed meats typically contain high levels of sodium. Always choose nitrate free and/or low sodium options when possible.

Non-Starchy Vegetables

Alfalfa Sprouts	Celery	Mustard Greens
Artichokes	Chili Peppers	Okra
Arugula	Collard Greens	Onion
Asparagus	Cucumbers	Radishes
Bell Peppers	Eggplant	Scallion
Broccoli	Green Beans	Spinach
Brussels Sprouts	Kale	Turnips
Cabbage	Leeks	Watercress
Carrots	Lettuce	Zucchini
Cauliflower	Mushrooms	

Healthy Fats

Almonds (unsalted)	Flax Seeds	Peanuts (unsalted)
Avocado (1/2 fruit)	Grapeseed Oil	Pecans (unsalted)
Avocado Oil	Macadamia Nuts (unsalted)	Pumpkin Seeds (unsalted)
Cheese	Natural Almond Butter	Sesame Oil
Chia Seeds	Natural Peanut Butter	Sunflower Oil
Coconut Oil	Olive Oil	Walnuts (unsalted)

Drinks

Black Coffee*	Sparkling Water (flavored and unflavored)
Black Tea*	Unsweetened Almond Milk
Infused Water	Unsweetened Cashew Milk
Ex: Lemon, lime, mint, ginger, cucumber	Unsweetened Coconut Milk

*Monitor caffeine intake.

Condiments

Apple Cider Vinegar	Mayonnaise	Salsa (low sodium)
Balsamic Vinegar	Lemon Juice	Seasonings & Spices (fresh and dried)
Dijon Mustard	Lime Juice	White Wine Vinegar
Hot Sauce (low sodium)	Red Wine Vinegar	

Pro Tip: Check your spices for low sodium labels.

Snacks

Serving Per Snack: 125 mL

Almonds (unsalted)	Hummus	Pecans (unsalted)
Avocado	Kale Chips	Pumpkin Seeds (unsalted)
Cheese	Macadamia Nuts (unsalted)	Sunflower Seeds (unsalted)
Cottage Cheese	Microwavable Popcorn	Turkey Breast
Dill Pickle (low sodium)	Olives	Turkey and Cheese Rollups
Edamame	Parmesan Crisps	Vegetables
Eggs	Peanuts (unsalted)	Walnuts (unsalted)
Grilled Chicken	Peanut Butter and Celery	

Fruits*

Blackberries	Honeydew	Strawberries
